

# Wishing Everyone In Our Great Industry a Happy Holiday Season!

2012 has been a very trying time for everyone involved in harness racing in Ontario. Never before has our way of life, of working hard to provide for our families, been more under attack.

As many of you know, I am now the Progressive Conservative candidate in Guelph. I will be the PC candidate in the next provincial election, expected to occur in the spring of 2013. I never thought I would be doing a job like this, but none of us could imagine the steps we would have to take for our future and the future of our industry.

I believe government should TRULY represent the people it serves. I am doing everything I can to make sure our voice is heard, the voice of hard-working Ontarians.

We owe it to ourselves, our friends and our families to show Ontario just how important our industry, our families and our horses are to this province. Horse people are known to help and rely on one another through tough times. We have never faced tougher times.

Winning an election campaign takes time, volunteers and money. I greatly appreciate all who have supported me in the past. You have helped my family and I make a living for more than a decade. I will continue to need your support going forward.

My campaign isn't for me. It's for all of us and all of Ontario. Change has been long overdue. Let's work together and begin building this great industry again. We're not just trying to achieve what we had before, but striving to once again set the standard for all of North American horse racing.
